Experience

In Nayra

- 2018–2019 **Developer**, BETTEREZ, Canada.

Transport and event ticket sales web and mobile app. As a part of the UX team team of the Canadian company, I've been working in Vue.js using ECMAScript 6, MongoDB databases and TDD methodology. Developing new features and implementing designed screens on the frontend side. I've been using VueJs and Vuex to render and handle data on the user level.

Technologies Used:
MongoDb, NodeJs, VueJs.

Before Nayra

2016–2018 **Frontend developer | UX Designer**, INTIVE, Argentina/Poland.

Worked designing and implementing user interfaces for different desktop and mobile apps, using different Javascript frameworks. UX team management.

Technologies Used:

Agile development, JavaScript, React, Node, Git.

Research, benchmark, testing, analysis and documentation, metrics, cases of use, user stories, user journey map, design thinking, design sprints

2017–2019 **Teacher of Interactive Arts / UX Designer**, UNTREF INTERNSHIP, Argentina.

Teacher of “Interactive Arts” in a program called “Innovation Clubs”. Traveled around Buenos Aires to teach teenagers some programming tools to produce Interactive Arts.

UX/UI Designer in a research project in which we developed a digital modular synthesizer for Android (Synth3f).

Technologies Used:

Java, Processing, Pure Data

2014–2016 **Frontend Developer**, PORTINOS AGENCY, Argentina.

Websites and landings design and development, Mailing design and development, JavaScript animations, digital banners.

Technologies Used:

HTML, CSS, JavaScript, PHP, MVC - CodeIgniter

Computer skills

Advanced HTML5, CSS, JavaScript

Intermediate VueJs, React, jQuery

Basic Sass, PHP, SQL, MongoDB, Java, Android, Node

Others Git, Adobe suite, Figma, Zeplin, inVision

- Travelling

Benefits of hiring a Nayra Coop Partner

I am part of a team of developers established as a worker's co-op. Collaborative work and a horizontal and democratic organization enhance the creative and technical processes.

- **Scalable teams**

We can grow with your business, providing compatible resources and teams from our IT coop networks, with whom we have plenty of experience working together.

- **Infrastructure**

We have our own office and work in a comfortable, safe and properly equipped environment.

- **Training and vision**

We understand that this is an industry in continuous change and evolution. We take learning very seriously and we invest in constant training.
