Computer skills

Advanced	JavaScript - NodeJS, MongoDB, MySQL, PHP, Laravel, Processing, Pure Data
Intermediate	Python, CSS
Basic	VueJS, React
Learning	Tensor Flow and OpenCV(Python), Faust (Functional Programming Language for Real Time Signal Processing)

Languages

Spanish	Native
English	Intermediate
Portuguese	Intermediate

Interests

- Electronic Art	- Music/Musical instruments
- Teaching	- Literature

Benefits of hiring a Nayra Coop Partner

I am part of a team of developers established as a worker's co-op. Collaborative work and a horizontal and democratic organization enhance the creative and technical processes.

- **Scalable teams**

We can grow with your business, providing compatible resources and teams from our IT coop networks, with whom we have plenty of experience working together.

- **Infrastructure**

We have our own office and work in a comfortable, safe and properly equipped environment.

- **Training and vision**

We understand that this is an industry in continuous change and evolution. We take learning very seriously and we invest in constant training.
