- Astrology

Benefits of hiring a Nayra Coop Partner

I am part of a team of developers established as a worker's co-op. Collaborative work and a horizontal and democratic organization enhance the creative and technical processes.

○ **Scalable teams**
  We can grow with your business, providing compatible resources and teams from our IT coop networks, with whom we have plenty of experience working together.

○ **Infrastructure**
  We have our own office and work in a comfortable, safe and properly equipped environment.

○ **Training and vision**
  We understand that this is an industry in continuous change and evolution. We take learning very seriously and we invest in constant training.
